# ABOUT DOMUS VENTURES

## COMPANY PROFILE

Since it was first established in 1997, DOMUS VENTURES has grown to be a prominent global player in the furniture industry, supplying high quality outdoor and indoor furniture to all parts of the globe. We have over 2200 dedicated staff in our factories and offices in China, Indonesia, Singapore, Germany and the United States with export over 1600 containers each year.

Over the years, we have designed and manufactured stylish high quality furniture using materials such as teak, natural wicker, loom, paper fiber and resin wicker. We take pride in constantly create new innovative designs in combination with new materials. We stand behind our unique designs, high quality products and our commitment to excellence. Our customers all over the world recognize the high quality “Domus Standard” benchmark that we maintain for every piece of furniture we produce.

Our in-house design team actively collaborates with international designers to create unique yet stylish designs. Whether modern or contemporary pieces, our goal is to

create the perfect setting for your homes and lifestyle whatever the taste, budget and requirement might be.

Apart from our own Domus branded furniture, we also produce custom-made designs for private labels.

Last but not least, our commitment is not only reflected through the high quality of our products, but also the responsiveness and high level of professionalism provided by our customer service team in ensuring that all our clients are more than 100% satisfied.

We hope that you enjoy our furniture as much as we enjoy creating them.

*Any violation of our copyrights, design rights and trademark rights as well as of our other rights may have severe civil law and/or criminal law consequences.*

## RATTAN

Rattan is a solid climbing cane vine, found mainly in the rain forests of Southeast Asia. It has been known to grow up to 500 feet either single or multi stemmed. The leaf bases are spiny, with the spines growing in neat interlocking rows.

Rattan can vary from 3/8" up to 1 3/8' in diameter and can be cut into fine strips which then can be woven into cane seating; or steamed and bent for furniture frames. The unique qualities of the rattan material make it possible to be stained into a wide variety of colors.

### Environmentally Friendly

Rattan is a sustainable natural material. With its fast growth rate, rattan has proven to be one of the most durable and environmentally friendly plants used for making furniture. This is a pertinent factor if environmental considerations count to you.

Not only is rattan renewable resource, but it is beautiful, durable and flexible. If you're looking for eco friendly furniture with unsurpassed beauty and casual elegance, our rattan furniture is the right one for you.

Our rattan furniture is made of the finest quality natural wicker and skillfully hand-woven into beautiful furniture to enhance your indoor areas.

## CROCO

Croco is a solid cane vine of the rattan family which has the original outer skin with a beautiful dark tone giving the furniture an exotic look and beauty. It is larger than ordinary wicker material and can be woven using the whole diameter or split into two as half round.

Its larger size combined with attractive dark tone makes it one of the finest wicker material available.

## KUBU

Kubu is another kind of a solid cane vine of the rattan family for weaving. The material is given a natural treatment leaving its outer skin with a stunning characteristic of antique grey patina.

Kubu furniture is one of the standouts that grow in popularity because of exquisite grey color that it emits in its display. It brings interest into your indoor space and work beautifully in a variety of settings.

## CARE AND MAINTENANCE FOR RATTAN, CROCO AND KUBU

- You can use it for indoor or put it on covered decks, lanais and verandas free from rain water and direct sunlight. If soiled, wipe the wicker furniture with a soft cloth dipped in a mixture of mild soap and water. Rinse it well and apply water sparingly and wipe up any excess.
- Dry the furniture thoroughly before you use it. Place it in a well-ventilated location out of direct sunlight to air dry.

### CLEAN YOUR WICKER FURNITURE REGULARLY

- Vacuum wicker furniture routinely with the soft brush attachment on your vacuum cleaner to remove surface debris. Sweep with the grain of the wicker and not crosswise to avoid scratching the wicker reeds.
- Remove trapped dust and foreign material with a soft bristle brush.
- Use tweezers to pick out lint and trapped pet hair that the vacuum and soft brush can't remove.

## FLAIR

A sophisticated yarn originated from cellulose paper that undergoes long and meticulous manufacturing process. The strength and quality of this material are without doubt one of the highest available.

Our flair material is produced in Europe. It is made of twisted paper material (no metal wire inside) and it is machine woven – which enables it to have different geometrical pattern. The sophisticated pattern added style, elegance and artistic touch to the flair furniture and makes it an outstanding addition into your indoor space.

The coating of our flair material does not contain dangerous chemical composition substance and formaldehyde free.

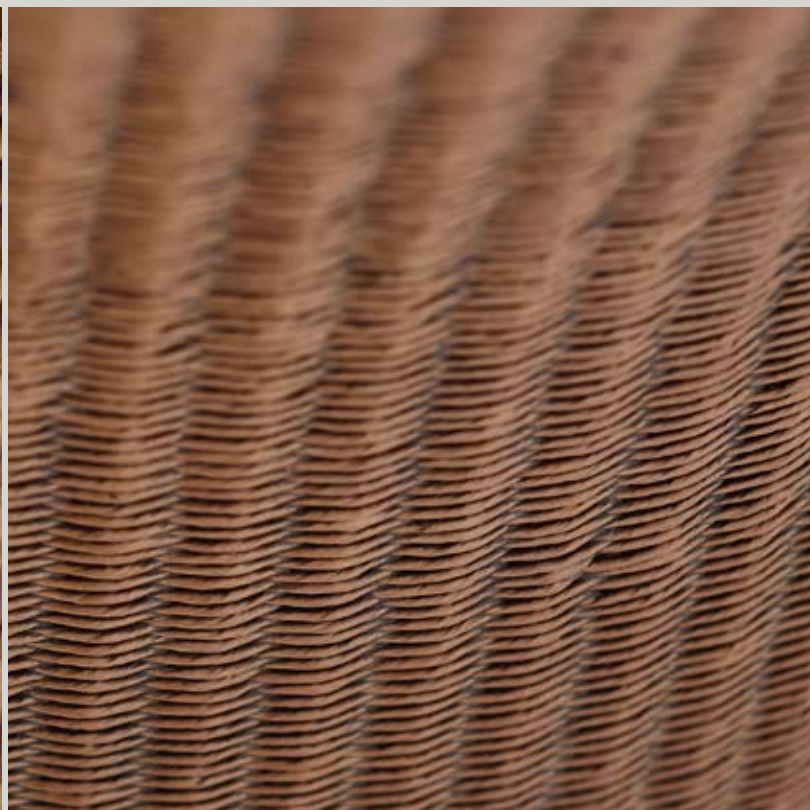

## LOOM

A paper based material which consists of a steel wire support wrapped with high quality twisted kraft paper available in wide range of colors. The loom wicker strands are spun tighter for a more elegant look, smoother feel, better finish, and longer lasting wicker.

Skillfully handcrafted, our loom furniture will complement your indoor space with beautiful and timeless design. In addition, the coating of this material does not contain dangerous chemical composition substance and formaldehyde free.

## CARE AND MAINTENANCE FOR FLAIR AND LOOM

You can use it for indoor or put it on covered decks, lanais and verandas free from rain water and direct sunlight. To clean, simply wipe it with a soft dry cloth. In case of sticky dirt, you can wipe with a soft damp cloth and then let it dry.
